DGDP Letter No. 06.06.0000.218.459.23 dated 24 April 2025

Dear Sir,

Jugoimport-SDPR express its compliments to the Directorate General Defence Purchase, Ministry of Defence, Bangladesh.

With reference to the subject contracts and Jugoimport's previous letters requesting to your respective Office to accept and approve change of the Manufacturer of subject cartridges from Sloboda factory to Jugoimport-SDPR because of new Serbian Ministry of Defence regulations that current military equipment need to be delivered to Serbian Army at first place. These regulations are adopted for the period of 9 months. With that being said, please note that we received an answer from the relevant Serbian Authority that there is a temporary engagement for Sloboda factory to provide the goods only to Serbian MOD.

We would like to emphasize once again that **artillery ammunition is joint development and production between Jugoimport and Sloboda**, and due to the fact that Jugoimport can deliver subject ammunition faster, in order to not step down too much from the delivery schedule, we are kindly asking you once again to consider our request and change the Manufacturer to be Jugoimport. Ammunition and its parts are technically the same, with same high quality, only there is slight difference in the fuze as follows:

	UTIU M15 (new)	UTIU M02P1
Fuze length	Max 160 mm	Max 153,33 mm
Fuze mass	Max 710 g	Max 810 g
Depth of fuze intrusion	Max 55 mm	Max 56,13 mm

It is to be mentioned here that these ammunitions are advanced and being used in NORA B-52K Gun.

Due to the fact that we are still waiting to receive the original **End User Certificates** from your side according to the subject Contracts, we kindly request once again from your respective Office to supply to our company original EUC through the Serbian Embassy in New Delhi, India **saying that Manufacturer of subject cartridges is Jugoimport.**

9

Please note that if possible, you should amend the contracts changing the name of Manufacturer and technical specification of the fuze (brochure of artillery fuze UTIU M15 is attached hereto) and based on that to provide us with original End User Certificates.

Furthermore, please request to your bank to amend the LC accordingly: last date of shipment to be 30 November 2025 and validity of LC to be 31 December 2025.

We would like to salute You and express our high appreciation to You.

Sincerely,

HEAD OF ASIA AND OCEANIA DIVISION

Sanja Milanovic
